

National Drive Electric Week 2017

National Sponsorship Opportunities

National Drive Electric Week (NDEW), September 9-17, 2017, is a nationwide celebration to heighten awareness of today's widespread availability of plug-in vehicles and to highlight the benefits of all-electric and plug-in hybrid-electric cars, trucks, motorcycles, and more. They are fun to drive, less expensive and more convenient to fuel than gasoline vehicles, better for the environment, promote local jobs, and reduce our dependence on oil.

Last year, Drive Electric Week drew more than 130,000 people to events in 235 cities, and we secured more than 600 media hits – reaching hundreds of thousands more people. This year we're planning to make our seventh annual NDEW even bigger and better.

Each event is led by local plug-in drivers and advocates and typically includes some combination of EV parades, ride-and-drives, press conferences, award ceremonies, informational booths, and more. [Plug In America](#), [Sierra Club](#), and the [Electric Auto Association](#) serve as the national team providing support to the events throughout the country. We are pleased to partner with the many other organizations, agencies, and individuals working to bring National Drive Electric Week to communities across the country. We are grateful to our sponsors who support and amplify these efforts.
